

An Analysis of Clinical Variables and Gene Expression Data across Biopsies from Patients with Lung Adenocarcinomata

Cedric, Hannah, Merlin

2026-05-22

Introduction

Loading and Cleaning of Annotation and Expression Data

Data Exploration

Clinical Annotation

Expression Data

Data Analysis

Dimensionality Reduction of Annotation Data

Differential Expression Analysis

Expression Correlation amongst High-Variance Genes

Predictive Modelling

Based on Clinical Annotation

Based on Expression Data

Quality and Comparison of Models

Integrative Model based on Clinical Annotation and Expression Data

Discussion

Conclusion
